

CAPABILITIES STATEMENT · PARTNER OVERVIEW

From uncertainty to **structured, sustainable compliance** — engineered to work alongside your team and your partners, not replace them.

Compliance isn't one project — it's a lifecycle. *Engage at any stage or hand us the whole path.*

01

Readiness

Gap assessment, scoping, documentation review & compliance roadmap.

02

Environment Build

Physical & digital enclave buildouts, tooling & security control implementation.

03

Assessment Prep

Evidence validation, mock assessments & point-of-contact support.

04

Continuous Compliance

Maintenance programs, recurring reviews & control updates over time.

TURNKEY SOLUTION One partner coordinating all four phases end-to-end — including a **right-fit turnkey enclave** selected from our vetted partner solutions — for a single, accountable path to certification and sustainment.

How we work with partners

*“We don't replace your partners — we **strengthen the process between them.**”*

WORKS ALONGSIDE MSPs · C3PAOs · **internal IT** · compliance teams · owners & operators

DELIVERY On-site or remote — including physical & digital environment buildouts

ENGAGEMENT MODELS Direct advisory · Referral · Teaming · White-label delivery under your brand

SET-ASIDE TEAMING Affiliate **Feral Fox (SDVOSB)** opens veteran-owned set-aside opportunities

Why partners choose Biorn

- **Vendor-neutral by design** — we match each client to the right enclave and tooling from a range of vetted partner solutions, never a single product.
- **Proprietary GRC platform** — a repeatable, evidence-based delivery engine, so results don't hinge on who's assigned.
- **Trusted by other assessors** — our CCAs are subcontracted by C3PAOs to run mock and formal assessments.
